Substances not added in Korsnäs products

In the production of Korsnäs paper and board products none of the listed substances in this certificate, or products containing these substances, are intentionally added:

- 1,2-Cyclohexanedicarboxylic acid diisononyl ester (DINCH, CAS no. 166412-78-8)
- Acetylacetone (2,4-pentanedione, CAS no. 123-54-6)
- Ammelide (CAS no. 645-93-2)
- Ammeline (CAS no. 645-92-1)
- Bisphenol A (CAS no. 80-05-7)
- Bromine (elemental, CAS no. 7726-95-6)
- Carbon black (CAS no. 1333-86-4)
- Chlorine (elemental, CAS no. 7782-50-5)
- Cyanuric acid (CAS no. 108-80-5)
- Diethylhexyl Maleate (DEHM, CAS no. 142-16-5)
- Dimethyl Fumarate (DMF, CAS no. 624-49-7)
- Melamine (CAS no. 108-78-1)
- N-Ethyl-o/p-Toluolsulfonamide (CAS no. 80-37-2, 80-39-7, 8047-99-2)
- Pentachlorophenol (PCP, CAS no. 87-86-5)
- Phenol (CAS no. 108-95-2)
- Phthalates (Phthalate based plastisizers, e.g. DEHP, DBP, BBP, DINP, DIDP, DNOP, DIBP)
- Polybrominated biphenyls (PBB)
- Polybrominated diphenyl ethers (PBDE)
- Polychlorinated Biphenyls (PCB)
- PVC (Poly Vinyl Chloride)
- Silver (nano silver etc., CAS no. 7440-22-4)
- Tribromophenols (TBP, 2,4,6-tribromophenol, CAS no. 118-79-6)

Consequently, we do not analyse the products for these substances on a routine basis. The above statement is based on the current knowledge of the raw materials and the manufacturing process. Regarding SVHC substances please refer to our REACH certificate.

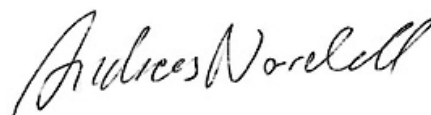

This document is valid until 2010-12-31 or until either the customer requirement or the products have been significantly changed.
