

Alfeld, 17.12.2010

**CERTIFICATE OF CONFORMITY**

SAPPI ALFELD confirms that none of the substances listed in the

ECHA Candidate List of Substances of Very High Concern, updated in  
December 2010

is intentionally used in our formulations or during the manufacturing process  
for producing our Speciality Paper grades.

Based on information given by our raw material suppliers a content  $> 0,1\%$  of  
hazardous substances can be excluded.

Contaminations of our fibre base by usage of potentially critical recycled fibres  
can be excluded since our Speciality Paper grades base on 100% virgin fibres.

Kind regards  
SAPPI ALFELD GmbH  
i.A.

Dr. Peter Wenz
